Ms. Beasley:

Can you confirm that the attached has been given to Judge Holmes?

Judge Holmes:

While I respect your position and have no prior history in your court, I do not believe safe within the Nashville Federal system. As I feel nothing positive can come from my attendance today, I am undertaking measures of protection. I believe that King & Ballow continues to misuse the courts and that I was not given a fair opportunity to protect my rights within Judge Trauger rules that favored local participants. As outlined in the attached and has been previously disclosed to Mr. Pierce, there is nothing that I have that he can take other than his continued harassment.

I ask for your understanding.

Michael Thompson
